

**Border  
Node  $b$**

**Node  $x$**

Request for revoking  
node  $m$  on node  $u$

layer 2 revocation request to node  $u$

**alt**

$x \neq u$  and request

forward re-  
quest to  $x+1$

$x == u$  and request

ACK including  
neighbors to  $x-1$

$x-1 == x$  and ACK

forward ACK  
to  $x-1$

$x-1 == b$  and ACK

forward ACK to  $b$

remove node  $m$  and  
add it to the NRL;  
collect direct  
neighbors

add routes of new neighbors of  $u$
